

# Services

## ***Service, not sales!***

Service is what we do. Sometimes we sell parts with our service. Service is our product, our bread & butter. We want you to be able to tell us how we are doing. Our most significant steps seem to usually come from somebody being honest with us.

For more [about us](#), please see that page.

---

## **Preventative Maintenance**

We perform annual preventative maintenance as outlined in NFPA ~~1911~~ 1910. Annual is typical, although we often schedule per request.

Example PM report

---

## **Repairs**

We work on fire trucks. We are an independant shop, with no brand affiliations. Our scope of practice includes anything with pumps from full rebuilds to leaking drains, plumbing & valves, electronic controls, etc. For chassis repairs, we do brakes, air system, and everything electrical. While we do external engine and transmission repairs, we are not yet capable of internal engine/transmission repairs, and some chassis work like leaf springs.

---

## **Performance Testing**

On-site NFPA 1911 performance testing.
